Working Plan -1969-70 to 1988-89

Annexure-I

between 1925 to 1927. Topographical maps to the scale 1"-1 mile exist for the entire district. Most of the 'A' Class ~~xxxx~~ reserved forests, and a few of the 'B' Class reserved forests have been shown on these toposheets. The position of the boundary lines in case of certain blocks have undergone change, after the topographical survey, and as ^a result, the existing position has to be incorporated in the map. Boundary survey maps to the scale 4"-1 mile in respect of most of the 'B' Class reserved forests exist. These maps were prepared between 1936 to 1943, and in the mean time, there have been many encroachments. These blocks, therefore, need to be resurveyed and remapped.

51. There has been no special forest survey by the Survey of India to prepare topographical maps to the scale 4"-1 mile. Attempts have, however, been made to obtain photographic ~~enlargements~~ enlargements of the 1"-1 mile toposheets to the scale of 2"-1 mile for the preparation of stock and management maps.

52. Area:- The total area of reserved forests in the district of Keonjhar is 4,42,255.86 acres or 691.02 square miles of this, ^{the} area covered by 'A' Class reserved forests comes to 3,61,669 acres or 565.10 square miles. In addition to the reserved forests, there are vast areas of protected or Khesra forests, but in actual position as it stands today is different. There have been many 'Nayabadi' cases and encroachments are many.

53. Blocks and Compartments:- Many of the important reserved forests blocks have been divided into compartments, and the areas of the various compartments have been computed by planimeter. The following tabular statement shows the distribution of the various forest blocks amongst the six

ranges, the number of compartments in each block, and the area of each block.
